Resilience Does Not Predict Academic Performance in Gross Anatomy

Rodrigo Enrique Elizondo-Omaña,* María de los Angeles García-Rodríguez, José Miguel Hinojosa-Amaya, Eliud Enrique Villarreal-Silva, Rosa Ivette Guzmán Avilan, Juan José Bazaldúa Cruz, Santos Guzmán-López
Department of Human Anatomy, School of Medicine, Universidad Autónoma de Nuevo León, Monterrey, Nuevo León, Mexico

The authors of the article above, Dr. Elizondo-Omaña and colleagues, publish this correction to state that the resilience scale published in the Appendix of their article (Elizondo-Omaña et al., 2010) was modified from the original scale published in the journal *Depression and Anxiety*, in the article titled, "Development of a new resilience scale: the Connor-Davidson Resilience Scale (CD-RISC)" by Connor and Davidson (2003). It should also be noted that the Connor Davidson Resilience Scale was copyrighted in 2001 and 2009 by Kathryn Connor and Jonathan Davidson.
